Promulgating Societal Values and Principles

"Peace of mind produces right values, right values produce right thoughts. Right thoughts produce right actions."

Values are the positive teachings provided to help us and tread the right path in life. A person who imbibes good values grows on to become a responsible individual and he is capable of demarcating right and wrong. The world is seeing a **crisis of unprecedented nature and effects**. Our healthcare workers are on the frontlines of battling the novel coronavirus disease (COVID-19) that's spreading rapidly throughout our city, state and nation. They are putting themselves in the path of this virus.

To imbibe such social values in every individual and to express appreciation and gratitude for these everyday heroes, the **"Department of Computer Science"** is organizing **Essay writing event** to uplift the dreary mood of the students, and to thank the toiling frontline workers.

Students of dept. of computer science are therefore requested to participate and upload their essays on the Google form link provided below.

Late date of submission: 26th Jan 2021
