

MAHARSHI DAYANAND COLLEGE OF ARTS, SCIENCE & COMMERCE, PAREL, MUMBAI-1

Academic Year **2023-24**

Dept. **Economics**

Activity Name: **Environmental Field Visit**

Date: 15/01/2024

Title: **Environmental Economics Field Visit to Sanjay Gandhi National Park and Kanheri Caves**

Total number of Beneficiary: **07**

Description in 100-300 words maximum

Environmental economics field visits to Sanjay Gandhi National park and Kanheri Caves were organized for Economics students on 13th January 2024 to sensitize them towards the environment. It is part of the TYBA Economics syllabus to study an environment. These students are learning Environmental Economics Papers in TYBA Sem V and VI.

By this visit, students could realize the importance of various kinds of linkages. For example, how trade routes were developed during ancient times in India around Mumbai. How these caves developed by monks for studies and meditation became the hub of other developmental activities. Students could understand the various types of architectural requirements in order to get fresh air and water, during this visit. Dr. Rewant Vikaram Singh, HoD, History Dept., Dr. Namrta Howal and Dr. Rupesh Gaikwad, guided the students. Each teacher gave his and her views on the linkages provided by the Kanheri caves and national park in maintaining the environmental balance around Mumbai.
